

THIESS means asset services

Thiess manages, operates and maintains one of the largest and most diversified fleets for a mining services provider globally, offering scalable solutions for peak fleet performance.

Let's talk more about asset services. Scan the QR to book a meeting with Thiess at MINExpo.

Asset maintenance

Our flexible asset maintenance services are focused on industry-leading and cost-effective equipment performance, availability and reliability. We pair sophisticated systems and processes with highly experienced maintenance teams to deliver asset strategy and planning. Our full site deployment project teams provide end-to-end maintenance on client fleet.

Truck and component rebuild

Our component rebuild centre in Indonesia resets the usage on Cat haul trucks to 0 hours - extending each truck's life by 50,000-60,000 hours. Since 2016, we have delivered more than 23,000 components. We use Mechatronix's lightweight carbon-fiber reinforcement to strengthen the components we rebuild, boosting the lifespan and load capacity of our assets.

Rentals

We manage, operate and maintain one of the largest and most diversified mobile equipment fleet for a service provider globally. We offer comprehensive plant hire and equipment ownership packages through FleetCo, a wholly owned Thiess company, which provides innovative capital replacement solutions, regardless of scale.

fact sheet

Energy transition services

We build partnerships to deliver fleet decarbonisation solutions to market including diesel hybrid retrofit options. We also offer autonomous haulage system solutions to enable the global transition to full battery electric fleets. We provide opportunities to upskill our people for the future of mining, ensure we have the workforce to deliver maintenance contracts on new energy fleets.

Case study

SOURCING AND SUPPLYING TWO 550T EXCAVATORS ACROSS THE COUNTRY

In mid-2021, a Western Australian client requested two 550t excavators to be on site by March 2022. FleetCo identified suitable plant in Queensland and started addressing the logistical challenge of coordinating permits and transport on both sides of the country. More than 2,700-employee-hours were required to prepare the excavators for delivery. To move the massive equipment, 14 trucks travelled a combined total of more than 300,000km to their destination. By listening to our client, and working closely with supply partners, FleetCo safely delivered on budget a solution that met the client's tight deadline.

About Thies

Thies delivers sustainable solutions in open cut and underground mining in Australia, Indonesia, Mongolia and North and South America. Established in 1934, Thies operates across diverse commodities, geologies, environments and cultures.

Thies' success over the past 90 years is built on our commitment to listen and understand the business needs of clients so we can safely deliver value and certainty.

We partner with our clients to develop effective and sustainable solutions, leading ESG practices and strong community engagement. Our pioneering spirit drives superior performance in the face of any challenge, from autonomous mining and climate change to deep mining and reclamation.

Across our operations, safety underpins everything we do. We're committed to keeping everyone safe everyday by providing a workplace that's both physically and psychologically safe.
